About me

Software Analyst at PTT Digital Solutions with 3+ years on the ServiceNow platform, certified in ITIL® and ServiceNow (CSA, CIS-ITSM and CIS-Data Foundations). I work with cross-functional teams on ITSM, CMDB and ITOM to improve workflows and deliver practical ServiceNow solutions. My background in UX/UI design and front-end development helps me build processes that are easy to use for both customers and the teams who run them.

Education

2019 — June 2019 - May 2023
Information Technology in School of Information Technology, King Mongkut's University of Technology Thonburi, Bangkok (with GPAX 3.34)

2016 — May 2016 - March 2018
Rayongwittayakom School, Rayong (with GPAX 3.19)

Work Experience

- **Software Analyst**
  – ITSM processes on ServiceNow — Incident, Problem, Change and Request Management — aligned with ITIL standards.
  – Manages the CMDB with a focus on data accuracy and relationship mapping between Configuration Items (CIs) to enhance IT operations.
  – ITOM processes such as Discovery and Service Mapping to maintain service visibility and automation.
  – Collaborates closely with cross-functional teams to improve workflows and provide process consultation.
  Jun 2024 - Present · PTT Digital Solutions Company Limited
- **Software Engineer**
  Developing and consulting IT Service Management (ITSM) programs using ServiceNow for customers to ensure successful implementation and support. Configured ServiceNow modules such as Incident, Problem and Change Management and Service Catalog, and monitored the deployment process to address any issues that arose.
